

BESS Operations Manager

Who we are.

At Bnewable, we are committed to supporting our business customers in their energy transition journey. We invest, develop, and operate sustainable and decentralised energy sources to help our clients achieve their goals. We place great emphasis on customer satisfaction, by simplifying and unburdening them of the complexity of energy, storage, production, and asset management.

To advance in our goals, we are actively looking for a **BESS Operations Manager with passion for BESS and Renewables** to join our operations team, taking on a crucial role in the development of complex energy projects that will elevate our customers' energy transition to the next level.

Job details.

As a BESS Operations Manager or “BESS Bnewie” at Bnewable, you will:

- Manage the entire technical project cycle, from start to finish, with a strong focus on technical feasibility and implementation and ensuring the highest quality and reliability standards.
- Lead the conceptual design of electrical systems for Battery Energy Storage Systems and solar installations ensuring seamless integration of the Bnewable proposition into the customers electrical set-up.
- Define the required technical specifications for the required electrical equipment including battery modules, PV panels, inverters, transformers, Mid Voltage/Low Voltage panels and protection systems.
- Act as the primary technical contact for project-related technical studies, collaborating with DSO and TSO on orientation and detailed studies to seamlessly integrate our (hybrid) BESS projects into the power grid.

As a true entrepreneur at heart, you will be part of a dynamic and fun-loving team that values passion, play, and customer-centricity.

Your profile.

To be successful in this role, you will need to:

- Have a strong background (degree or work experience) in electrical engineering and at least 5-10 years of experience in the energy industry with BESS projects.
- Possess a strong knowledge of electrical codes, regulations, and industry best practices.
- Demonstrate a working knowledge of battery storage and solar technologies, including their operation, grid connections and permitting requirements.
- Exhibit proficiency in working with single-line diagrams and the ability to swiftly analyse the electrical configuration of an industrial site. You can quickly identify opportunities and troubleshoot the hurdles during the different project phases.
- Have strong project management skills, with the ability to manage multiple projects simultaneously, demonstrating a good dose of common sense and a focus on delivering results and meeting deadlines. You get things done!
- Strong stakeholder and contractor management skills.
- Be an excellent communicator with interpersonal skills, capable of motivating people.
- Solutions oriented who is not afraid to take responsibility and accountability.
- Native fluency in Dutch and/or French and/or English, both oral and written.
- Nice to have, working knowledge of communication and network protocols (e.g. Modbus TCP/IP)

But the best part?

We're not just a company!

Bnewable is a rapidly growing renewable energy start-up and offers you a chance to grow with us by taking on a key role in making the energy transition happen.

We are committed to fostering a diverse and inclusive work environment, where everyone is encouraged to express themselves. We take care of our people by offering competitive compensation packages (including stock options) that reflect your worth and potential, combined with flexibility through our hybrid and remote working policy, giving you the trust and freedom to manage your projects and responsibilities.

Employeneurship at Bnewable: become part of our success story!

Not just as a word but as a way of working, a paradigm even.

Employeneurship is about thinking and acting like an entrepreneur, with the added security of employment. But more than anything, it is a guarantee for continuous development and the opportunity to really be fully responsible for the direction of your career.

(Y)our values.

B.

Entrepreneurs with “goesting.”
Authentic, proud, and passionate.

new.

We challenge the market. We are transparent.
No dinosaurs. We walk the talk.

able

We dare and get it done.
We know our stuff and are data and technology-driven.

B.new.able

Renewable asset owners with a market focus.
We listen to our customers.

So, what are you waiting for?

If you like what you read and you have **#goesting** to join the Bnewable team and contribute to our story, please reach out by sending your CV and let us make a difference together.

Cannot tick off all the talents but still feel the itch? Then be sure to apply! A match is a match, and sometimes more important than a list.

Cheers,
The Bnewable team or #Bnewies!
